

## Bio Lakes

A brand new concept; it's no more a common "pool" but a different way to realize a water basin for your house, your hotel, your accommodation, your public park or your available entertainment space. No more a classic "structure" holding the water volume but a sort of **skin** made by a composed natural granulated stone combined with a very high performance, technologically advanced, resins and other materials that guarantee the expected and necessary structural strength capability. **Nature at home**, finally, wherever you are...

**Mediterranea Commerciale srl** is based in Livorno, a very well known Tuscan port, and trades a large variety of products in Italy and abroad.

What follows briefly shows which our core sectors are and gives some hints regarding what we mean in terms of customer complementary support.

## ACTIVITY SECTORS:

### Water Supply

Multilayer, polyethylene, PVL, PP-R, cast iron pipes, and all the respective fittings, valves and accessories.

### Water Purification

Reverse osmosis plants, water softeners, filters, cartridges, desalination and deferrization plants and accessories.

### Irrigation

Design and products supply for residential, accommodation, agriculture, sport and public irrigation systems.

### Fire Fighting

Carbon steel, stainless steel, PVC, polyethylene pipes, and all the respective fittings, valves etc, indoor and outdoor fire fighting systems, and all the accessories.

**Passion for our job:** What we can say is that this simply means AVAILABILITY; we definitely prefer this simple statement rather than mostly used "our is a customers satisfaction" oriented company...

### Water Treatment

Imhoff tanks, First Flush Rainwater Harvesting Plants, Degreasers, Phytoremediation...

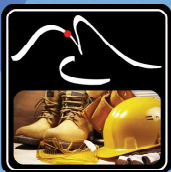

### Drainage & Sewage System

PVC, polyethylene, cast iron pipes, and all the respective fittings, valves and accessories.

### Industrial

Carbon steel, stainless steel, PVC, polyethylene pipes, and all the respective fittings, valves and accessories.

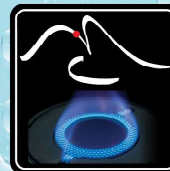

### Accidents Prevention

Body protection devices: Jackets, helmets, trousers, shoes, gloves, glasses, overalls, ear caps and muffs, filtering masks, welder products, tools bags, bands, etc...

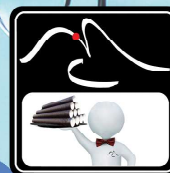

### Paintings Coatings & C.

Hydro paints, laquels, sprays, rust preventers, anti mould, anti humidity, sheaths, stuccos, thinners, decoratives and colourants.

### Gas System

Polyethylene, multilayer, carbon steel pipes, and all the respective fittings, valves and accessories.

### Retail Marketing

We directly assist customers in our Livorno store on daily products sale.

### Site Support

Our technicians usually sustain construction companies on their job on site, working together to comply with customers request and specifications.

### Technical Support

Our technicians can help customers in finding proper and or equivalent products, complying technical specifications and rules.

### Design & Projects

We can support our customers needs developing together the right solution or work on brand new projects.
